

EnviroBlend™

6-10-10

EnviroBlend (6-10-10) is a premium complete fertilizer for use when extra phosphorus and potassium are required. Excellent for strengthening turf during spring transition, fall overseeding and new turf establishment. Its unique combination of organic acids sustain the availability of phosphorus and improve the turf's overall growth response. EnviroBlend is formulated for application through fertigation.

Benefits of Use

- Premium complete fertilizer containing high phosphorus and potash
- Superior winter performance on over-seeded turf, during grow-ins, or under newly placed sod.
- Uniquely responsive organically complexed phosphorus source
- Excellent nutrient control when applied through fertigation
- Excellent turf color response
- Superior winter performance on over-seeded turf

Problem Conditions Improved

- Nutritional peaks and valleys
- Phosphorus deficiency symptoms
- Stunted growth with necrotic leaf tips resulting from potassium deficiency
- Poor turf vigor during grow-in and establishment

GUARANTEED ANALYSIS

Total Nitrogen (N)	6.00%
2.40% Urea Nitrogen	
2.37% Ammoniacal Nitrogen	
1.23% Nitrate Nitrogen	
Available Phosphate (P ₂ O ₅)	10.00%
Soluble Potash (K ₂ O)	10.00%
Zinc (Zn)	0.04%
0.04% Water Soluble Zinc	

Derived From: Urea Ammonium Nitrate, Anhydrous Ammonia, Phosphoric Acid, Potassium Carbonate, Zinc Sulfate.

Application Instructions: One gallon (3.79 L) of EnviroBlend 6-10-10 contains 0.63 lb. (0.29 kg) of Nitrogen, 1.05 lbs. (0.48 kg) of Phosphorus, and 1.05 lbs. (0.48 kg) of Potash.

Physical Characteristics: 10.5 lbs./gal.

Desired lbs. of N	Fl. oz. per 1000 s.f.*	Gallons per Acre**
0.10	20.3	6.9
0.125	25.4	8.7
0.25	50.8	17.3

*Apply in 2.5-5 gal. water per 1000 sq. ft. **Apply in 50-100 gal. water per Acre.
