BIOPRO[®]

EnviroPlex[™]

For use on fine turf such as golf courses and athletic fields

GUARANTEED ANALYSIS

This product contains non-plant food ingredients: 22.0% organic acids

Derived From: Leonardite Ore

Application Instructions: This product can be tank mixed with nutrient blends. Apply 36 oz. per 1000 sq. ft. in 2.5 gal. of water per month, or 1-2 gal. per acre diluted in 50 gal. water per month. May be effectively applied through irrigation. **Compatibility:** Always check compatibility with other products before mixing. Fertilizers with a pH of 4 or less may not be compatible. Do not apply with Calcium based fertilizers. **Mixing Instructions:** 1) Partially fill tank with fertilizer or water and start agitation. 2) Add EnviroPlex slowly to the circulating mix. 3) Fill tank and agitate thoroughly. This product should be used as a supplement to a regular fertility program. It will not, by itself, provide all the nutrients required by plants.

CAUTION: Keep out of reach of children. Harmful if swallowed. Avoid breathing. May be harmful if inhaled. Avoid eye contact. Avoid prolonged or repeated contact with skin. May cause irritation. Wash thoroughly after handling. Corrosive.

Handling: Store between 40-95°F (4.44-35°C). Avoid direct heat or fire. Decomposition may occur at high temperatures (above 225°F/107°C). Do Not Freeze!

Conditions of sale: The information on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, turf /crop conditions and all other factors are beyond the control of the seller.

Shake well before using.

A pre-mix "jar-test" is recommended to check compatibility of product combinations that have not been previously tested.
