

# NutriSolve™

NutriSolve is a complete blend of micronutrients chelated with a combination of citric and fulvic acid chelates which stabilize nutrients and enhance their uptake and translocation within the plant. Citrates are the natural chelating compounds found in plant tissue giving them very low phytotoxicity. NutriSolve is designed as a foliar spray to correct or prevent a range of micronutrient deficiencies.

### Benefits of Use

- Balanced supply of micronutrients (B, Cu, Fe, Mn, Mo, Zn)
- Rapid response from foliar uptake
- Increased nutrient uptake from humic acid
- Increased turf vigor

### Problem Conditions Improved

- Wide range of micro nutrient deficiency symptoms

### Guaranteed Analysis

Total Manganese (Mn).....	2.00%
2.00% Water Soluble Manganese	
Copper (Cu).....	0.25%
0.25% Chelated Copper	
Zinc (Zn).....	0.75%
0.75% Chelated Zinc	
Iron (Fe).....	2.00%
2.00% Chelated Iron	
Combined Sulfur (S).....	2.79%
Boron (B).....	0.08%
Molybdenum (Mo).....	0.001%

### Derived From

Manganese Sulfate, Copper Citrate, Zinc Citrate, Iron Citrate, Sodium Borate, Sodium Molybdate.

This product contains a proprietary combination of citric, fulvic and other organic acid chelates which stabilize micronutrients and enhance their plant uptake and translocation.

### Physical Characteristics

10.5 lb./gal., pH 6.4

### Application Instructions

Apply 6 oz. per 1000 sq. ft. of turf in 2.5 gal. of water, or 2 gal. per acre diluted in 50 gal. water. This product should be used as a supplement to a regular fertility program. It will not by itself provide all the nutrients normally required by plants.

A pre-mix "Jar Test" is recommended to check compatibility of product combinations that have not been previously tested.

Shake well before using.

### Container Sizes & Model Numbers

2.5 gal.	Model	57180
30 gal.	Model	57181
275 gal.	Model	57182

### Handling & Storage

Store between 40-95° F. Avoid direct heat or fire. Decomposition may occur at high temperatures (above 225° F). Avoid Freezing!

Keep out of reach of children. Harmful if swallowed. Avoid inhalation, eye contact, or ingestion. Avoid prolonged or repeated contact with skin which may cause irritation. Wash thoroughly after handling. Corrosive.
