## pHPerfect™

### *Water Treatment Additive*

**Active Ingredient:** Monocarbamide dihydrogensulfate

**Not regulated if transported by motor vehicle or railcar in packaging that will not react dangerously or be degraded by this material [49 CFR173.1549(d)]**

**Application Instructions:** pHPerfect Water Treatment Additive is designed for injection into irrigation water to reduce pH and bicarbonate levels in irrigation water, correcting problems associated with water containing high bicarbonates and other dissolved solids.

**Handling:** pHPerfect may cause skin irritation after prolonged exposure. Flush skin with water as soon as possible after exposure. In case of contact with eyes, immediately flush with clean water for 15 minutes, then seek medical attention. Rubber gloves, boots and face shields are recommended when handling this product. The pHPerfect treated water must not be lower than pH 4.6 to prevent corrosion of mild steel, aluminum, concrete or nylon irrigation system components.

**CAUTION:** Keep out of reach of children. May cause severe eye burn. Prolonged contact may cause severe skin burns. Harmful or fatal if swallowed. Do not taste or swallow. Do not get in eyes, on skin or on clothing. Do not breathe mist. Do not heat above 230°F. Use with adequate ventilation. Keep system or container closed. Wash thoroughly after handling. Wash appropriate personal protective equipment. Please read the Material Safety Data Sheet for this product.

**Conditions of sale:** The information on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, turf/crop conditions and all other factors are beyond the control of the seller.

*A pre-mix "jar-test" is recommended to check compatibility of product combinations that have not been previously tested.*
